EDUCATION

- Universitas Airlangga** Surabaya, Indonesia
• *Data Science Technology* Aug 2023 - Present
Courses: Data Science Consulting, Machine Learning, Databases, Data Mining, Discrete Mathematics, Probability, Algorithms
Honours: Mahaghora Scholarship (0.44% acceptance rate)
- SMA Lokon St. Nikolaus** Tomohon, Indonesia
• *Natural Science* Jun 2020 - May 2023
Honours: Class of 2023 Valedictorian, Olimpiade Sains Nasional 2022 (Mathematics, #1 in North Sulawesi, top 100 in the nation)

SKILLS SUMMARY

- Languages:** Python, SQL, PHP, R, Go, JavaScripts, C, TypeScript
- Frameworks:** Scikit, PyTorch, Django, Flask, NodeJS, Laravel
- Tools:** Docker, GIT, PostgreSQL, MySQL, SQLite, AWS, cPanel, Figma

EXPERIENCE

- Center for Environmental, Social, and Governance Studies** Surabaya, Indonesia
• *Data Scientist Intern* Dec 2025 - Present
 - Object Recognition:** Built a machine learning pipeline using object recognition to automatically identify and extract Sustainable Development Goals (SDGs) addressed by companies from their annual reports.
 - Data Scraping:** Developed data scraping pipelines to extract, clean, and structure market data like the Saudi Exchange, public companies' stock prices across Southeast Asian markets, and ESG-related disclosures such as CDP Scores.
 - ESG Metric Extraction:** Built an automated pipeline using OpenAI Batch API and vector databases to extract energy intensity components from unstructured sustainability and integrated reports.
 - HR Website:** Maintained and enhanced the internal HR platform, including feature improvements and support for face recognition-based attendance systems.
- Mahaghora Scholarship Organization** Surabaya, Indonesia
• *IT Lead* Feb 2025 - Present
 - OKRs:** Delivered 100% of team's 2025 OKRs three months ahead of schedule
 - Products:** Spearheaded organization-wide digital transformation by architecting core systems including main website, internal tools, data platform, and AI integrations; publicly documented releases (click here).
 - Dev Team:** Lead a 4-person development team in an Agile/Scrum environment, balancing strategic oversight with hands-on technical contributions.
 - Code Contribution:** Still contributed roughly 40% of the overall codebase.
- Project Manager* Apr 2024 - Jan 2025
 - Recruitment Campaign:** Directed end-to-end planning and execution of nationwide scholarship recruitment campaign, managing all phases from strategy development to implementation.
 - Selection Process:** Managed the full recruitment pipeline, from attracting 17,800+ user sign-ups to selecting and onboarding 6 scholars, the highest number of awardees in a single batch in the program's history.
 - Team Coordination:** Coordinated cross-functional team of 11 members spanning 6 universities, ensuring effective collaboration and timely project delivery.
- Handal Informasi Teknologi** South Tangerang, Indonesia
• *Data Scientist Intern* Jan 2026 - Feb 2026
 - Time Series Forecasting:** Built a time series forecasting model to predict application performance.
 - Monitoring Dashboard:** Developed a full-stack monitoring dashboard integrating Flask, React, and REST APIs for real-time visualization.
- Ngobrol Matematika** Remote
• *Social Media Specialist (Part-Time)* Aug 2024 - Aug 2025
 - Audience Growth:** Grew Instagram following by 30%.
 - Content Production:** Produced 150+ educational slides for @ngobrolmatematika, managing both content writing and visual design while effectively communicating complex mathematical concepts to diverse audiences.

PROJECTS

- DoggoGAN:** From-scratch Generative Adversarial Networks for dog image synthesis.
- BMHG AI:** An AI-powered chatbot built with Retrieval Augmented Generation.
- Diffusion Maze Solver:** Conditional Denoising Diffusion Probabilistic Models for maze solving.
- Hasla AI:** Enabling non-technical employees to build software via chat. Work in progress.
- Socio Economic Status Clustering:** PCA & K-Means for socioeconomic clustering on real-world data.
- SENSE:** Deployed audio analysis and summarization models.
- Web Projects:** jptsquad.com, woka.world, beasiswamahaghora.com, tanya.beasiswamahaghora.com, hr.esgi.ai.

INTERESTS

- Competitions: Arkavidia ITB, Find IT UGM, FIT UKSW, Dataquest Unair.
- Design: UI/UX, Social Media, and Co-founder of Woka, a clothing brand.
- Sports: Basketball, Football, and Chess (1750 rated on Chess.com).
